PROFESSIONAL SUMMARY

Computer Science Engineering student focused on financial analysis, business analytics, and quantitative research, with a strong interest in research internships. Builds data-driven models, analytical dashboards, and research projects to translate complex financial and business data into clear, actionable insights.

EDUCATION

B.Tech, Computer Science Engineering | **LJ University, Ahmedabad** 2024 – Jul 2028 (Expected)

Higher Secondary & Secondary Education | **The H.B. Kapadia New High School, Ahmedabad**

SELECTED PROJECTS

Tata Motors — 5-Year Financial Performance & Valuation Analysis | **Independent Financial Analysis** FY2022 – FY2026

- Built a consolidated five-year analysis covering revenue, EBITDA, EBIT, PBT, net profit, EPS, assets, equity, debt and cash flow.
- Evaluated profitability, margins, leverage, cash generation, operating performance and valuation indicators to assess changes in financial strength.
- Structured the work as an analyst-style case study using Tata Motors annual-report data, ratio analysis and decision-oriented interpretation.

Fraud Detection & Transaction Risk Analysis | **Machine Learning | Python** Portfolio Project

- Developed an end-to-end fraud analytics workflow covering EDA, preprocessing, feature engineering, classification and risk decisioning.
- Compared Logistic Regression and Random Forest using precision, recall, F1-score and ROC-AUC, with emphasis on fraud detection and false-alert trade-offs.
- Translated model outputs into Low Risk, Review and High Risk categories and connected analytical results to an interactive dashboard.

Retail Store Business Analytics Dashboard | **Independent Business Analytics** Interactive Dashboard

- Built an independent dashboard focused on retail sales performance, business KPIs, product trends and interactive decision support.

SKILLS

Finance & Analytics

- Financial analysis
- Ratio analysis
- Valuation
- Microsoft Excel
- Data visualization

Research & Decision Support

- Quantitative research
- Data interpretation
- Research reporting
- Business analytics
- Risk decisioning

Data & Programming

- Python
- Pandas / NumPy
- Scikit-learn
- SQL / PostgreSQL
- Basic Java

Design & Tools

- Dashboard design
- UI basics
- Canva
- Graphic design
- Photo editing

RESEARCH & ANALYTICAL WORK

- Does Momentum Investing Generate Excess Returns in the Indian Stock Market?

CERTIFICATIONS

- Exploratory Data Analysis for Machine Learning — IBM / Coursera
- Data Analysis for Machine Learning — Coursera
- Product Management Job Simulation — Electronic Arts / Forage
- AI for Business Professionals — HP LIFE

– Introduction to HTML, CSS & JavaScript — IBM / Coursera
